Experience

Freelancer

Full-Stack Developer

Mar 2025 - Present | Kerala

- Church Management System (In Development)

Currently developing a church management system with an admin dashboard to manage members by family and location using React, Node.js, and MongoDB.

Projects

- E-commerce Platform

Built a full-stack e-commerce platform with authentication, protected routes, and admin product management using React, Node.js, Express.js, MongoDB, and JWT.

- Food Ordering Website

Developed a responsive user interface with add-to-cart functionality using React and state management.

- IT Services Website (Deployment in Progress)

Designed a website to showcase IT service offerings using React and Tailwind CSS.

- College Information Website

Built a website to display academic events and campus updates using HTML, CSS, JavaScript, and React.

- Movie Info App

Developed an app to display movie ratings, cast, and release details using React, Axios, and the OMDB API.

- Banking Website UI

Designed a static, responsive banking interface using React.
